## PART II. READING

Read the article carefully. There are two (2) tasks to do below the article.  
You get one point for each correct answer.

### Survive in the Wild

In the UK, camping is becoming very popular. People are bored by life in the city and they are looking for ways to get back to nature. *Survive in the Wild* is an organisation that teaches people how to survive outdoors by using natural resources. Basic survival techniques include how to hunt, fish and prepare food to stay warm and safe. Here are three of the survival courses you can try.

On the *Family Day* course, you learn three basic skills in a day: how to build a fire, how to look for food and how to cook food. At the moment, a family is making a fire with friction.

If you are looking for adventure and you are free for the whole weekend, try the *Adventure Weekend*. Some people are making simple tools for hunting and a boy is climbing a tree. He's sleeping outdoors tonight, so he's looking for wood to build a fire. Alternatively, why not try the *Two-day River Safari*? You can make a canoe and learn a lot of new skills. The course begins every Friday after school and there are lots of activities on offer. One family is fishing, others are swimming, and the safari leader is chopping wood to build a fire.
